Requires opioid treatment programs to use the PMP at least monthly for each patient. Requires that dispensers check the ND PMP, another state's PMP, or both prior to dispensing a controlled substance to a patient for the treatment of pain or anxiety if the dispenser becomes aware that the person is receiving reported drugs from multiple prescribers, receiving reported drugs for more than 12 consecutive weeks, abusing or misusing reported drugs, requesting dispensing of a reported drug from a prescriber with whom the dispenser isn't familiar, or is presenting a prescription from outside the usual geographic area. APNs with prescriptive authority must query the PDMP for new or unestablished patients requiring a controlled substance prescription, every six months during treatment with a controlled substance, when the client requests an early refill or engages in a pattern of taking more than the prescribed dosage, and upon suspicion or known drug overuse, diversion, or abuse by the patient.
