Alabama Department of Public Health

Alabama Prescription Drug Monitoring Program (PDMP) Grant Activities
Grant Activities

- Educate Users and Improve Collaboration:
  - Develop training videos for specific user groups.
  - Host live conferences throughout the state that focus on PDMP training and opioid prescribing.
  - Develop public service announcements.
Grant Activities

Increase Utilization of PDMP:

- Increase electronic health record and pharmacy management system integration.
- Determine additional reports needed by regulatory boards to monitor prescribing and dispensing behavior of their licensees.
- Determine what additional reports are needed by prescribers and dispensers to improve clinical decisions.
Grant Activities

Ensure Data Integrity:

- Develop processes and reports to ensure dispensers are reporting accurately and timely.
- Determine common reporting errors made by dispensers and provide education and training.
Grant Activities

- Analyze De-identified Data:
  - Request, collect, and analyze PDMP data as approved by the Information Release Review Committee.
