Conference Call Agenda/Minutes

➤ Roll Call

Quorum established.

➤ Approval of Meeting's Minutes from 11-18-2020

Motion to approve the minutes made by Jean Hall (KY); seconded by Kevin Schmidt (NIC).
Unanimously approved.

➤ Best practices in EHR integration/interstate data sharing queries

- Scenario #1 – no comments or edits.
- Scenario #2 – no comments or edits.
- Scenario #3 – need to add in verbiage about having a unified token or something similar to associate the PDMP and EHR systems for authorization via single sign-on; perhaps add part to discuss who is the identity manager in this scenario; identify the common provider identifiers to reconcile between the systems;
- Scenario #4 – discussed at last conference call; this is the primary solution currently being used.
- Scenario #5 – discreet data is actionable data; Nebraska is doing this as part of the med record reconciliation, perhaps applies to Maryland too; belief is that many states will have a problem with it; need to identify the components of integration, define query – what is provided and stored; discreet data v. PDMP report; **continue on next call**
- Scenario #6 – goes with #5 discussion; try to unify these two

Jean Hall (KY) and Clay Rogers (Appriss) will draft a new scenario to deal with credential exchange.

Julio Mendoza (KY) – recommended that the term “patient medication history” be used in document.

➤ Other Business

- Next Meeting – Wednesday, January 20th at 1-2p ET; consider another date/time for future calls

TTAC will contact Mike Flanigan to identify an acceptable date/time for future calls.
