C.R.S. 12-280-404(4) (a) Each practitioner or his or her designee shall query the program prior to prescribing the second fill for an opioid unless the patient receiving the prescription:

(I) Is receiving the opioid in a hospital, skilled nursing facility, residential facility, or correctional facility;

(II) Has been diagnosed with cancer and is experiencing cancer-related pain;

(III) Is undergoing palliative care or hospice care;

(IV) Is experiencing post-surgical pain that, because of the nature of the procedure, is expected to last more than fourteen days;

(V) Is receiving treatment during a natural disaster or during an incident where mass casualties have taken place; or

(VI) Has received only a single dose to relieve pain for a single test or procedure.

(b) The program must use industry standards to allow providers or their designees direct access to data from within an electronic health record to the extent that the query relates to a current patient of the practitioner.

© A practitioner or his or her designee complies with this subsection (3.6) if he or she attempts to access the program prior to prescribing the second fill for an opioid, and the program is not available or is inaccessible due to technical failure.

(d) A violation of this subsection (3.6) does not create a private right of action or serve as the basis of a cause of action. A violation of this section does not constitute negligence per se or contributory negligence per se and does not alone establish a standard of care. Compliance with this section does not alone establish an absolute defense to any alleged breach of the standard of care.
