Details:
Prior to initial prescription for a C-II and no less than every three months. Additional PDMP query requirements specific to the individual prescriber licensure boards. Prior to the initial prescribing or administration of a Schedule II controlled substance, the dentist shall obtain and review a PDMP report for the 12-month period immediately preceding the patient encounter and appropriately utilize that data in the evaluation and treatment of the patient. Provides that the query requirement does not apply when prescribing or administering a controlled substance as part of the patient’s hospice or end-of-life treatment, to a patient admitted to a licensed hospital as an inpatient or observation patient, during and as part of a normal and expected part of the patient’s course of care, for the treatment of pain associated with cancer or the treatment of cancer, or as necessary to treat a patient in an emergency situation. Provides that a dentist shall obtain and review a new PDMP report if the treatment extends beyond three months. Provides that if prescribing or dispensing a controlled substance, the podiatrist shall query the PDMP for all data available on the patient for the 12 month period immediately preceding the patient encounter and appropriately use that data in the evaluation and treatment of the patient. Provides that if the course of the patient’s treatment with a controlled substance extends beyond three months, the podiatrist shall, among other things, obtain and review a PDMP report on the patient no less than once every three months for all available data on the patient for the 12 month period immediately preceding the query and modify or terminate treatment as appropriate. Requires physicians, who prescribe or dispense Buprenorphine-Mono-Product or Buprenorphine-Combined-with-Naloxone, to obtain and review a Kentucky All Schedule Prescription Electronic Reporting System (KASPER) report for that patient for the twelve (12) month period immediately preceding the initial patient encounter and appropriately utilize that information in the evaluation and treatment of the patient.
