Data Retention

- Data retention policy Prescriber information purged Patient information purged Retain de-identified data
 All information purged Dispenser information purged Drug information purged Retention time: 3 years

Record retention details:

a. We keep data for 3 years from the date it was reported to us, not the date it was dispensed. This means that, since we began collecting data in March, 2012, we will not begin purging until March, 2015, even though the data goes back to 2011 dispense dates.

b. The data will be permanently removed from the registry unless law enforcement specifically requests that we retain someone's information due to an active investigation. We will not keep any law enforcement-related information unless they ask us to.

Veterinarian Policies

Criteria for veterinarian queries: Vets do not have access to the MPDR.

Reporting method:

Reporting description:

Data Fields:

Animal reporting specifications same as human patient

Animal v. Human Patient Reporting Differences:

Reporting Issues: Veterinarians don't report, but other pharmacies do report pet prescriptions. Problems: Pharmacies do not use a consistent format for this information, many do not include owner's name or birthdate, and I believe some are using the prescribing Veterinarian's DOB as the pet's DOB - there is no way this data can show on a patient search.
