Enrollment and Accounts

- Supervisor Review/audit of Delegate Accounts
- Number of Delegates allows: not limited
- Auto Enroll with License Renewal or App

Enrollment Method:
Online application process, followed by an email verification and notary agreement form.

Practitioner IDs for PDMP Account:
- DEA controlled substance registration number; Licensing Board number; National Provider Identifier; NCPDP number;
- 2 factor authentication: 2 factor authentication not offered

Criteria for Dispensers to get account to upload data:
Must be licensed in the state

Criteria for Prescriber delegates to get account:
- online application, email verification, notary form, and 'supervisor' approval

Criteria for Dispenser delegates to get account:
- online application, email verification, notary form, and 'supervisor' approval

Criteria for PAs to get account:
- online application, email verification, notary form

Criteria for Nurse Practitioners to get account:
- online application, email verification, notary form

Criteria for other users to get account:
- online application, email verification, notary form

Requirements for Patients to get PDMP Report:
notarized authorization form

Requirements for others to get PDMP Report:

Criteria for Online Non-healthcare accounts:
- Licensing/regulatory Board investigators, Law Enforcement investigators (federal, state, and local), Pardons or Parole officers, Peer Review Committee representatives, Drug Court Judge, Licensed Addiction Counselors

PDMP Data for Epidemiological Purposes: Authority to Release

- Law Enforcement On-line access to PDMP
- Law Enforcement Written Request access to PDMP

Law Enforcement Access Method:
- Written request for out-of-state law enforcement only

Law Enforcement Access Requirements: Active Investigation
Enrollment Mandates

Dispenser - Mandatory PDMP Enrollment
Prescriber - Mandatory PDMP Enrollment

Effective Date(s): January 1, 2018

Details:
Practitioners with a DEA registration number

Use Mandates

Dispenser - Mandatory PDMP Use
Prescriber - Mandatory PDMP Use

Effective Date(s): October 1, 2014 (pharmacies); April 1, 2014 (OTPs)

Details:
Each board has setup up their own requirements for accessing the ND PDMP under certain circumstances. Requires opioid treatment programs to use the PMP at least monthly for each patient. Prior to dispensing a prescription, each dispenser licensed by a regulatory agency in the state of North Dakota who dispenses a controlled substance to a patient, for the treatment of pain or anxiety shall, at a minimum, request and review a prescription drug monitoring report covering at least a one-year time period or another state's report, or both reports, when applicable and available, if the dispenser becomes aware of a person currently: a. receiving reported drugs from multiple prescribers; b. receiving reported drugs for more than twelve consecutive weeks; c. abusing or misusing reported drugs; d. requesting the dispensing of a reported drug from a prescription issued by a prescriber with whom the dispenser is unfamiliar; or e. presenting a prescription for reported drugs when the patient resides outside the usual pharmacy geographic patient population. 2. After obtaining an initial prescription drug monitoring report on a patient, a dispenser shall use professional judgment based on prevailing standards of practice in deciding the frequency of requesting and reviewing further prescription drug monitoring reports or other state's reports, or both reports for that patient. 3. In the rare event a report is not immediately available, the dispenser shall use professional judgement in determining whether it is appropriate and in the patient's best interest to dispense the prescription prior to receiving and reviewing a report. 4. For the purpose of compliance with subsection 1, a report could be obtained through a prescription drug monitoring program integration with software or also a board-approved aggregate tool, for which the NARxCHECK will be an approved tool. The national association of boards of pharmacy foundation's NARxCHECK service is a risk assessment tool for health care providers and pharmacists that accesses patient prescription information from prescription drug monitoring databases, analyzes the data, and provides a risk-based score that includes prescription drug monitoring program data and graphical analysis to assist in prescribing and dispensing decisions. Prior to the initial prescription of any controlled substance, including samples, an optometrist authorized by the DEA to prescribe, administer, sign for, dispense, or procure pharmaceuticals shall authorize an employee to review or personally request and review the PDMP for all available PDMP data on the patient, and shall do all the following: (1) assess a patient’s PDMP data every 12 months during the patient’s treatment with a controlled substance; (2) review the patient’s PDMP data if the patient requests early refills or demonstrates a pattern of taking more than the prescribed dosage; (3) review the patient’s PDMP data if there is a suspicion of or a known drug overuse, diversion, or abuse by the patient; (4) document the assessment of the patient’s PDMP data; (5) discuss the risks and benefits of the use of controlled substances with the patient; (6) request and review PDMP data on the patient if the practitioner becomes aware that a patient is receiving controlled substances from multiple prescribers; (7) request and review the patient’s PDMP data if the prescriber has a reasonable belief that the patient may be seeking the controlled substance, in whole or in part, for any reason other than the treatment of an existing medical condition. An optometrist shall not be required to query the PDMP if any of the following apply: (1) the controlled substance is prescribed or dispensed for a patient who is currently receiving hospice care; (2) the optometrist obtains a report through a Board-approved risk assessment tool for health care providers that accesses patient prescription information from prescription drug monitoring program databases, analyzes the data, and provides a risk based score that includes PDMP data; or (3) the optometrist prescribes a controlled substance after the performance of a primary eye care procedure and no more than a 72-hour supply is prescribed.
Training on Enrollment and Use

PDMP Queries

- Ability to search for multiple patients in one query
  - Maximum number of patients in one query: unlimited
  - Other Query Date Range:

- Patient Query Date Range:

- Minimum data elements to query for healthcare user: first name, last name, date of birth, prescription fill dates from & to

- Query by partial data elements by healthcare user: Partial first name and partial last name search. Must have date of birth.

- Optional data elements to query by healthcare user: Phone number, social security number, drivers license number, city, state/province, zip code

- Minimum data elements to query for non-healthcare user: first name, last name, date of birth, prescription fill dates from & to

- Query by partial data elements by non-healthcare user: minimum 3 characters

- Optional data elements to query by non-healthcare user: Phone number, social security number, drivers license number, city, state/province, zip code

Unsolicited Reports/Push Notifications

- Frequency unsolicited alerts/reports generated: Daily

- Delivery method for unsolicited alerts/reports: Notification sent via email, A link to the report is located in their dashboard once they’ve logged in.

- Delivery method for unsolicited alerts/reports - LE: Notify law enforcement when necessary by mainly a phone call

- Delivery method for unsolicited alerts/reports - Boards: Notify a board when necessary by either mail or phone call

- Unsolicited alerts/reports to practitioners not enrolled in PDMP
Veterinary Policies

Data transmission frequency for Veterinarians:
Criteria for veterinarian queries: first name, last name, and date of birth
☑ Veterinarian access to owner's prescription history
☐ Reporting Specifications

Reporting Method:
