Use Mandates

Dispenser - Mandatory PDMP Use
Prescriber - Mandatory PDMP Use

Effective Date(s): December 25, 2016; July 13, 2020

Details:

Effective 3-1-20, a pharmacy is required to query the PDMP if s/he observes behavior by a patient indicating possible drug diversion or abuse based on the guidelines developed by the board. Practitioners, other than veterinarians, are required to query the PDMP before prescribing or dispensing opioids, benzodiazepines, barbiturates, or carisoprodol with certain exceptions. Prior to prescribing a Schedule III – V analgesic, an optometric glaucoma specialist must review the prescription data and history related to the patient, if any, in the PDMP, unless: (1) the patient has been diagnosed with cancer or the patient is receiving hospice care and the optometric glaucoma specialist clearly notes such in the patient record; or (2) the optometric glaucoma specialist makes a good faith attempt to comply but is unable due to circumstances outside the specialist’s control. Dentists are required to query the PDMP prior to prescribing or dispensing opioids, benzodiazepines, barbiturates, or carisoprodol beginning March 1, 2020. Effective 7-13-20, prior to prescribing opioids, benzodiazepines, barbiturates, or carisoprodol for the treatment of chronic pain, a physician must review prescription data and history related to the patient, if any, contained in the Prescription Drug Monitoring Program.
Effective Date(s): December 25, 2016; July 13, 2020; November 4, 2022

Minimum Operational Standards for the Treatment of Pain Patients, sets forth language outlining the requirements for the treatment of pain patients by all practices treating pain, regardless of certification or other status. The rule also provides requirements for Gold Designated Practice physicians treating new pain patients who are transferring care from another pain provider.

Subsection (a) provides the minimum requirements for physicians treating pain patients, including standard of care, medical records, pain contracts, and monitoring requirements.

Subsection (b) sets forth requirements for Gold Designated Practice physicians treating new pain patients who are transferring care from another pain provider and provides that the new physician may provide only a one-time 30-day maximum non-refillable prescription for pain.

Non-substantive changes in response to comments were adopted to §195.4(b)(1)©, so that a physician must request medical records from the prior treating physician(s) within 15 business days of seeing the patient, rather than being required to obtain the records within 15 days of seeing the patient. Corresponding non-substantive changes were adopted to §195.4(b)(3), so that a physician must perform certain tasks prior to prescribing additional medications beyond the one-time prescription at the initial visit, if the requested medical records are not received within 15 business days of the date of request, rather than the date of the initial visit.
