### Required PDMP Enrollment and Use

Required enrollment - Prescriber     Required enrollment - Dispenser     Compliance Process for Enrollment Mandates

All prescribers with a State C/S License must test and register (enroll) to access the PDMP

Enrollment Effective Date(s):    May 11, 2010

Required use - Prescriber     Required use - Dispenser     Compliance Process for Use Mandates

A prescriber shall query the PMP prior to the first time the prescriber prescribes a Sch. II or III opioid for a patient unless: 1) the prescription is for 3 days or less; 2) the prescriber has prior knowledge of the patient's prescription history based on the prescriber's review of the patient's health record; or 3) the prescription is post-surgical and the total duration of opioid is for 30 days or less. Provides that if the prescriber is repeatedly prescribing a Sch. II or III opioid to a patient, the prescriber shall periodically query the PMP or other similar records of controlled substances the patient has filled. An advanced practice registered nurse may prescribe or administer a Schedule II controlled substance without a consultation or referral plan if, among other requirements, prior to the first time prescribing or administering a Schedule III substance for chronic pain or a Schedule II controlled substance, unless treating the patient in a licensed general acute hospital, checks information about the patient in the PMP and periodically thereafter checks information about the patient in the PMP. §58-37f-303 provides that a prescriber or dispenser of an opioid for outpatient usage shall diligently access and review the database. If a dispenser's review of the system indicates that a patient seeking an opioid may be obtaining opioids in quantities or frequencies inconsistent with generally recognized standards, the dispenser shall attempt to contact the prescriber to obtain the prescriber's informed, current, and professional opinion as to whether the prescribed opioid is medically justified.
