Enrollment and Accounts

- Supervisor Review/audit of Delegate Accounts  Number of Delegates allows: not limited
- Auto Enroll with License Renewal or App

Enrollment Method:
Online application, requiring DEA and NPI verifications. Once complete, they must submit copies of DEA registration and practitioner license for confirmation.

Practitioner IDs for PDMP Account:
DEA controlled substance registration number; Licensing Board number; National Provider Identifier;

2 Factor Authentication:
Allowed to use 2 factor authentication

Criteria for Dispensers to get account to upload data
DEA registration and practitioner license and must work with vendor to confirm upload capabilities.

Criteria for Prescriber delegates to get account:
master account holder must create the account

Criteria for Dispenser delegates to get account:
master account holder must create the account

Criteria for PAs to get account:
To register, practitioners must have a current DEA license as well as a current practicing license and must be prescribing medication for a WV resident.

Criteria for Nurse Practitioners to get account:
To register, practitioners must have a current DEA license as well as a current practicing license and must be prescribing medication for a WV resident.

Criteria for other users to get account:
All "other" account must be approved by PMP Administrator

Requirements for Patients to get PDMP Report:
Not allowed

Requirements for others to get PDMP Report
Criteria for Online Non-healthcare accounts:
PDMP Data for Epidemiological Purposes: Authority to Release

- Law Enforcement On-line access to PDMP
- Law Enforcement Written Request access to PDMP

Law Enforcement Access Method:
Active Investigation
Enrollment Mandates

Dispenser - Mandatory PDMP Enrollment
Prescriber - Mandatory PDMP Enrollment

Effective Date(s): May 6, 2013 (physicians); May 15, 2013 (osteopaths); June 1, 2014 (dentists)

Details:
All practitioners who prescribe or dispense Schedule II – IV controlled substances must register with the PMP and obtain and maintain online access to the PMP; all practitioners must register within 30 days of obtaining a new license and prohibits a licensing board from renewing a practitioner’s license without proof of the practitioner’s registration.

Effective Date(s): May 6, 2013 (physicians); May 15, 2013 (osteopaths); June 1, 2014 (dentists); October 29, 2021; telehealth 12-17-2021; 4-22-2022

Details:
All practitioners who prescribe or dispense Schedule II – IV controlled substances must register with the PMP and obtain and maintain online access to the PMP; all practitioners must register within 30 days of obtaining a new license and prohibits a licensing board from renewing a practitioner’s license without proof of the practitioner’s registration.

WV ADC s 11-10-3. Practitioner Requirements for Obtaining and Maintaining Access to the CSMP.
3.1. A practitioner who prescribes or dispenses Schedule II, III, IV, or V controlled substances shall register with the CSMP and obtain and maintain online or other electronic access to the program database. Compliance with the provisions of this section must be accomplished within 30 days of the practitioner obtaining a new license or registration.
3.2. Licensees shall be required to certify compliance with the provisions of this section when renewing a license. The Board may conduct an audit to verify compliance therewith.

8.3. A telehealth providers who prescribes any medication listed in Schedules II though V of the Uniform Controlled Substance Act pursuant to a telehealth encounter with a patient at an originating site in West Virginia shall:
8.3.1. Obtain and maintain online or other electronic access to the CSMP

Use Mandates

Dispenser - Mandatory PDMP Use
Prescriber - Mandatory PDMP Use

Effective Date(s): June 8, 2012; March 10, 2021; October 29, 2021; telehealth 12-17-2021; 5-13-2022; MAT 4-1-2022

Details:
Upon initially prescribing any Schedule II controlled substance, any opioid or any benzodiazepine to a patient who is not suffering from a terminal illness, and at least annually thereafter should the practitioner continue to treat the patient with a controlled substance, shall access the West Virginia Controlled Substances Monitoring Program Database for information regarding specific patients. The information obtained from accessing the West Virginia Controlled Substances Monitoring Program Database for the patient shall be documented in the patient’s medical record maintained by a private prescriber or any inpatient facility licensed pursuant to the provisions of chapter 16 of this code. Prior to dispensing or prescribing medication-assisted treatment medications, the treating physician must access the PMP to ensure the patient is not seeking medication-assisted treatment medications that are controlled substances from multiple sources and shall review the PMP no less than quarterly and at each patient’s physical examination. Requires opioid treatment programs to query the PMP upon admission of the patient, at least quarterly to determine if controlled substances other than those prescribed medication assisted treatment medications are being prescribed for the patient, and at each patient’s physical assessment. Provides that the initial physical assessment of a patient seeking admittance to a medication assisted treatment program shall include an inquiry to and report from the PMP. Further provides that program physicians shall access the PMP at the patient’s intake, before administration of MAT medications or other treatment in a MAT program, after the initial 30 days of treatment, prior to any take-home medication being granted, after any positive drug test, and at each 90-day treatment review. Pharmacists must access the PDMP database upon initially dispensing any Schedule II controlled substance, any opioid, or any benzodiazepine to a patient who is not suffering a terminal illness.

4.1. The provisions of this section only apply to a practitioner's prescribing, administering or dispensing of Schedule II
controlled substances, opioids, or benzodiazepines to a patient that the practitioner does not consider to be suffering from a terminal illness.

4.2 A practitioner shall apply for and receive capability to access the CSMP providing a patient any Schedule II controlled substance, any opioid, or any benzodiazepine.

4.3 Before initially providing any Schedule II controlled substance, any opioid, or any benzodiazepine to a patient a current practitioner shall access the CSMP to determine whether the patient has obtained any controlled substance reported to the CSMP from any source other than the current practitioner within the twelve month period immediately preceding the current practitioner’s encounter with the patient.

4.4. The practitioner shall promptly document the initial CSMP data review in the patient’s medical record. Documentation must include the date the practitioner accessed the patient's CSMP record, a dated copy of the CSMP report or a list of all controlled substances reported to the CSMP as dispensed to the patient within the preceding twelve months, and the practitioner's rationale for providing the patient Schedule II controlled substance(s), opioid(s), and/or benzodiazepine(s).

4.5. If a practitioner-patient relationship continues and the course of treatment includes the continued prescribing, dispensing or administering of any controlled substance, the practitioner shall access the CSMP at least annually to determine whether the patient has obtained any controlled substances reported to the CSMP from any source other than the current practitioner within the twelve month period immediately preceding the date of access. The date of access and any controlled substances from any other source other than the current practitioner reported to the CSMP within such twelve month period immediately preceding the date of access shall be then promptly documented in the patient's medical record by the current practitioner, with rationale for continuing provision of the controlled substance by the current practitioner.

4.6. A practitioner may review a patient's CSMP data more frequently than annually. However, a practitioner must document each CSMP data review in the patient medical record. Documentation must include the date the practitioner accessed the patient’s CSMP record, a dated copy of the CSMP report or a list of all controlled substances from any other source other than the current practitioner, and the practitioner's rationale for discontinuing or continuing to provide controlled substances to the patient.

4.7. A practitioner who is providing a patient controlled substance medication shall review a patient's CSMP data whenever the provider has a specific concern regarding controlled substance abuse, misuse, or diversion of controlled substances by the patient.

Prescribing Authority and Limitations.

8.1. When prescribing to a patient via telemedicine, a telehealth provider shall prescribe within the prescriptive authority of the provider's profession in this state.

8.2. A telehealth provider who provides health care to a patient solely through the use of telemedicine technologies is prohibited from prescribing a controlled substance listed in Schedule II of the Uniform Controlled Substance Act except under the following circumstances, which are authorized by W. Va. Code § 30-3-13a: 8.2.1. The patient is an established patient of the prescribing telehealth provider's group practice; 8.2.2. The provider submits an order to dispense a Schedule II controlled substance to a hospital patient, other than in the emergency department, for immediate administration in a hospital; or 8.2.3. The telehealth provider is treating patients who are minors, or if 18 years of age or older, who are enrolled in a primary or secondary education program and are diagnosed with intellectual or developmental disabilities, neurological disease, Attention Deficit Disorder, Autism, or a traumatic brain injury in accordance with guidelines as set forth by organizations such as the American Psychiatric Association, the American Academy of Child and Adolescent Psychiatry, or the American Academy of Pediatrics. The provider must maintain records supporting the diagnosis and the continued need of treatment.

8.3. A telehealth provider who prescribes any medication listed in Schedules II through V of the Uniform Controlled Substance Act pursuant to a telehealth encounter with a patient at an originating site in West Virginia shall: 8.3.1. Obtain and maintain online or other electronic access to the CSMP; 8.3.2. Comply with all preconditions to prescribing identified in W. Va. Code § 60A-9-5a and the requirements set forth in 11 CSR 10; 8.3.3. Maintain a record of the controlled substance prescribed and the diagnosis or basis for the prescription in the patient medical record; 8.3.4. Comply with all prescribing protocols and prescribing limitations established in the Opioid Reduction Act, W. Va. Code § 16-54-1 et seq; and 8.3.5. Comply with all state and federal laws which govern the prescribing of controlled substances.

8.4. A telehealth provider may not prescribe any drug with the intent of causing an abortion.
17.11. The program shall check the Controlled Substances Monitoring Program database upon admission of the patient, at least quarterly to determine if controlled substances other than those prescribed medication-assisted treatment medications are being prescribed for the patient, and at each patient’s physical assessment. The patient’s record shall include documentation of the check of the Controlled Substances Monitoring Program database and the date upon which it occurred.

23.1. Each MAT program shall comply with policies and procedures developed by the designated state oversight agency and the West Virginia Board of Pharmacy to allow physicians treating patients through a MAT program access to the Controlled Substances Monitoring Program database maintained by the West Virginia Board of Pharmacy.

23.2. The program physician shall access the Controlled Substances Monitoring Program database in order to ensure that the patient is not seeking prescription medication from multiple sources. The results obtained from the database shall be maintained with the patient records.

23.3. Program physicians shall access the database:
23.3.a. At the patient’s intake;
23.3.b. Before the administration of medication-assisted treatment medications or other treatment in a MAT program;
23.3.c. After the initial 30 days of treatment;
23.3.d. Prior to any take-home medication being granted, if applicable;
23.3.e. After any positive drug test; and
23.3.f. At each 90-day treatment review.

Effective Date(s): June 8, 2012; March 10, 2021

Details:
Upon initially prescribing any Schedule II controlled substance, any opioid or any benzodiazepine to a patient who is not suffering from a terminal illness, and at least annually thereafter should the practitioner continue to treat the patient with a controlled substance, shall access the West Virginia Controlled Substances Monitoring Program Database for information regarding specific patients. The information obtained from accessing the West Virginia Controlled Substances Monitoring Program Database for the patient shall be documented in the patient’s medical record maintained by a private prescriber or any inpatient facility licensed pursuant to the provisions of chapter 16 of this code. Prior to dispensing or prescribing medication-assisted treatment medications, the treating physician must access the PMP to ensure the patient is not seeking medication-assisted treatment medications that are controlled substances from multiple sources and shall review the PMP no less than quarterly and at each patient’s physical examination. Requires opioid treatment programs to query the PMP upon admission of the patient, at least quarterly to determine if controlled substances other than those prescribed medication assisted treatment medications are being prescribed for the patient, and at each patient’s physical assessment. Provides that the initial physical assessment of a patient seeking admittance to a medication assisted treatment program shall include an inquiry to and report from the PMP. Further provides that program physicians shall access the PMP at the patient’s intake, before administration of MAT medications or other treatment in a MAT program, after the initial 30 days of treatment, prior to any take-home medication being granted, after any positive drug test, and at each 90-day treatment review. Pharmacists must access the PDMP database upon initially dispensing any Schedule II controlled substance, any opioid, or any benzodiazepine to a patient who is not suffering a terminal illness.

PDMP Queries

- Ability to search for multiple patients in one query:
- Patient Query Date Range: >3 years
- Minimum data elements to query for healthcare user: Last Name, DOB, date range
- Query by partial data elements by healthcare user: First Name
- Optional data elements to query by healthcare user:
- Minimum data elements to query for non-healthcare user: Last Name, DOB, date range
- Query by partial data elements by non-healthcare user:
- Optional data elements to query by non-healthcare user:

Unsolicited Reports/Push Notifications

- Frequency unsolicited alerts/reports generated: after approval by Advisory Committee
- Delivery method for unsolicited alerts/reports: Report mailed, Notification sent via email, Report sent via email
- Delivery method for unsolicited alerts/reports - LE: Report mailed, Notification sent via email, Report sent via email
- Delivery method for unsolicited alerts/reports - Boards: Report mailed, Notification sent via email, Report sent via email

- Unsolicited alerts/reports to practitioners not enrolled in PDMP
Veterinary Policies

Data transmission frequency for Veterinarians: Daily
Criteria for veterinarian queries: Animal Owner's Name
☑ Veterinarian access to owner's prescription history
☑ Veterinary Icon on PDMP Report

Reporting Specifications
- Reporting Method: Electronic, Web Portal
- Reporting Fields:
  - PAT07 - Last Name
  - PAT08 - Animal's First Name
  - PAT18 - Animal's Date of Birth
  - PAT19 - Animal's Gender
  - PAT20 - Species Code

Reporting Description: Veterinarians are required to report

Reporting Mandate Compliance
- Reporting Mandate Actions:
- Reporting Issues: Veterinarian's software does not allow electronic submission of data, Veterinarian's software is not able to report data in ASAP format,

Reporting Misc Information:

Enrollment Mandate Compliance
- Enrollment Description: Veterinarians are required to enroll as data requesters with the PDMP

Enrollment Mandate Compliance Details:

Query Mandate Compliance
- Query Description: Veterinarians can voluntarily query and do query

Query Mandate Compliance Details:
PDMP Effectiveness Measures

Reduction in morphine milligram equivalents (MMEs) prescribed or dispensed
Reduction in number of fatal or non-fatal overdoses
Reduction in incidence of multiple provider episodes
Reduction in number of opioid dosage units dispensed
Reduction in number of opioid prescriptions issued

Substance Use Disorder Activities
